

SwimSeal™ protective ear drops

Usage Indications:

SwimSeal™ protective ear drops, a patented formula, create a natural water-repellent coating that protects the ear canal from the trapped water that causes discomfort, pain and can lead to inflammation and Swimmers' ear infections. Does not contain alcohol, does not affect hearing or balance and leaves the ear naturally.

Recommended for those who practise water sports especially swimmers both fun and competitive, divers, surfers and triathletes.

Will also protect your ears when showering, washing your hair and bathing. Suitable for all ages.

Dropper bottle

Contains 7,5ml clear liquid

Contra Indications:

Avoid if you are allergic to any of the ingredients, have a perforated eardrum, infection or other problems in the ear canal such as grommets.

Warnings and Precautions:

Use only in the ear canal. Do not use in the eyes, nose or mouth or directly after ear surgery.

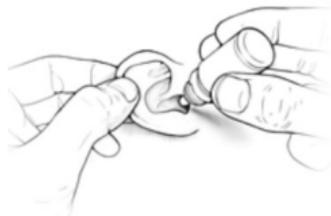

Stop using and seek medical advice if there is irritation or hypersensitivity of the ear. Do not use to treat ear infections. In case of doubt, seek advice from your doctor before using the product.

Keep out of the reach of children.

Pregnancy and breastfeeding:

It is recommended not to use the product if pregnant or lactating as it has not been tested for use with those conditions.

Directions for Use:

Use prior to water exposure. Shake well before use. Pull the outer ear gently upwards and backwards to straighten the ear canal. Put 2-3 drops into each ear and gently massage the tragus (outer skin) to ensure the canal is coated. Repeat after 2 hours' exposure to water.

Composition:

The dropper bottle of 7.5ml contains:

2% Australian Tea Tree Oil

98% Polydimethylsiloxane (water repellent)

Storage Instructions:

Keep in a cool dry place below 30 degrees centigrade.
Do not expose to direct sunlight.
